PRESIDENCY OF
THE REPUBLIC OF TÜRKİYE
**DIRECTORATE OF
COMMUNICATIONS**

Foreword

Distinguished Members of International Media, Welcome to Türkiye!

Directorate of Communications, established in 2018 as part of Türkiye's transition to the Presidential Government System, is one of our state's newest and most influential institutions. Directorate of Communications manages Türkiye's communication activities in an integrated and strategic framework, collaborating with all government agencies. Taking steps to facilitate national and international press members' works and support their development is one of our key areas of activity. In this context, in addition to press card and accreditation services, we carry out projects aimed at training media members, improving their working conditions, and increasing high-quality content across all channels of communication.

In 2021, **331 international media members from 36 countries and 151 media outlets** around the world have been accredited by the Directorate of Communications to cover the latest developments in Türkiye and the region. Press cards are issued to accredited journalists to facilitate their professional work. Press cards provide accreditation to various ceremonies, meetings, and events, particularly those of an official nature, while also facilitating daily life.

Furthermore, we believe it is critical that members of the international media can learn Turkish and be able to communicate with people from all walks of life. In this regard, the Directorate of Communications, in collaboration with the Yunus Emre Institute, has launched an online Turkish language training course for resident international media members for the first time this year, and **tens of participants from around 30 countries** applied to this course. Participants will receive certificates upon completion of courses and will be able to progress to an advanced level of Turkish language training if they so desire.

The ‘Guide for International Media Members in Türkiye’ has been prepared specifically for you and contains up-to-date and comprehensive information about our country and institutions. This Guide provides information to assist you in your professional and social lives on your first days in Türkiye and throughout your stay in our country. In addition to this Guide, you can apply to Directorate of Communications for any additional documents and information you require or make any such request directly to our relevant institutions. At this point, I’d like to emphasize the significance of transparent dialogue and cooperation. At a time when journalism is described as a “race against time”, we must remember that while “time” is on one side of the scale, “truth” is on the other. Please be assured that the Directorate of Communications will make every effort to ensure that you strike the right balance between speed and fact-checking.

We hope that your journalism experience in Türkiye will broaden your horizons and that you leave as “friends of Türkiye” with pleasant experiences and lovely memories at the end of your assignment here.

We wish you success in your assignment in Türkiye and hope to keep in touch even after your assignment is completed.

Prof. Fahrettin ALTUN

Presidency of the Republic of Türkiye
Director of Communications

1. Practical Information For Professional Works

1.1. Official Procedures

1.1.1. Visa Annotated for Press

The “Visa Annotated for Press” is a visa granted to press members who are assigned to Türkiye on a permanent basis by international media organisations. Our Directorate has no authority or responsibility for the application procedures for press visas. The mentioned visa can be applied for directly at the Republic of Türkiye’s Embassy or Consulate in the foreign country. Press members who take a break from their job in Türkiye for more than 6 months must apply for a new press visa.

Press members will apply to the Republic of Türkiye’s Mission in the country where their organisation is located, stating that they have been assigned to Türkiye. After the application is submitted by the mission to the Ministry of Foreign Affairs of the Republic of Türkiye, the evaluation procedure for meeting the Visa Annotated for Press requirements will commence. The Ministry of Foreign Affairs of the Republic of Türkiye is authorised for the documents to be requested from the applicant during the issuance of the mentioned visa. Press members who will visit Türkiye as part of a temporary accreditation request are not required to obtain the visa in question.

After obtaining a press visa, you must apply for online press accreditation. Press members applying for permanent accreditation for the first time must upload their visas to the online accreditation portal.

1.1.2. Customs Procedures

1.1.2.1. International Media Members on Temporary Assignment

Professional equipment, materials, and their spare parts, as well as motor vehicles, which international media members on temporary assignment in Türkiye bring in during their assignment in accordance with the rules of declaration and registry, are exempt from all customs duties. Upon the termination of the assignment, a foreign media member must take all these items out of the country; they can neither be transferred nor sold.

International media members on temporary assignment in Türkiye should register their professional equipment and materials with the International ATA (Admission Temporaire/Temporary Admission) Carnet to bring them to Türkiye. They must take these materials when leaving the country upon the termination of their assignment.

1.1.2.2. Resident International Media Members in Türkiye (on Permanent Assignment)

Press members are allowed to bring their private cars into Türkiye within the first six months of their arrival in Türkiye,

International media members who come to Türkiye on permanent assignment can bring with them the following items free of customs duties:

- Professional equipment and supplies, including the spare parts,
- Household goods,
- Office equipment,
- Automobiles and other means of transportation

It is subject to prior permission of the Republic of Türkiye Directorate of Communications to bring these items through a franchise document or “takrir”. All professional equipment and materials brought in by foreign journalists with a franchise document should be duly disposed of through re-exportation, transfer or sale, provided that prior permission is obtained from the Republic of Türkiye DoC.

1.1.3. Residence Permit

According to Law No. 6458 on Foreigners and International Protection (YUKK), a residence permit is a permit issued for the purpose of residing in Türkiye. This permit, issued by the competent authorities, grants foreigners the right to live in our country for a specified period and in a specific location. A residence permit, which is important for establishing and maintaining public order, is drafted when a foreigner makes a request, applies with the required documents, and meets the conditions for the type of residence permit requested.

1.1.3.1. Types of Residence Permits

The types of residence permits are as follows:

- Short-term Residence Permit,
- Family Residence Permit,
- Residence Permit for Students,
- Long-term Residence Permit,
- Humanitarian Residence Permit,
- Residence Permit for Victims of Human Trafficking

The only valid type of residence permit for international media members arriving in Türkiye on temporary assignment is the short-term residence permit.

1.1.3.2. Short-term Residence Permit

Short-term residence permits are governed under Articles 31 and 33 of Law No. 6458 on Foreigners and International Protection and Articles 28 and 29 of the Regulation on the Implementation of the Law on Foreigners and International Protection.

Short-term Residence Permit Conditions

Foreigners must meet the conditions outlined in Article 32 of the Law to be granted a short-term residence permit:

- To submit supporting information and documents on the purpose of stay in Türkiye,
- Not to fall under the purview of Article 7 of the said Law,
- To have an accommodation that meets general health and safety standards,
- Upon request, to submit a criminal record certificate issued by the competent authorities of the country of citizenship or legal residence
- To submit information on their residential address in Türkiye.

Application for a Short Term Residence Permit

The initial application for a short-term residence permit is submitted online at <https://e-ikamet.goc.gov.tr/lkamet/Basvuru/IlkBasvuru>

Following the online application, an appointment is scheduled for the applicant by the system. The applicant must go to the Provincial Directorate of Migration Management in their city along with the requested documents on the date and time of the appointment (<http://e-ikamet.goc.gov.tr/lkamet/IstenenBelgeler>). If the application is approved, the residence permit will be mailed to the applicant's address within approximately 90 days.

1.1.3.3. Residence Permit Extension

Residence permit extension procedures can be conducted at <https://e-ikamet.goc.gov.tr/lkamet/Basvuru/UzatmaBasvuru>

Applications for residence permit extensions can be made as early as sixty days before the expiry of the current residence permit and in any case before the residence permit expires. Documents required for extension applications can be found at <https://e-ikamet.goc.gov.tr/lkamet/IsteneBelgeler>

1.1.4. Foreign Identification Number

According to Population Services Law No. 5490, the Directorate General of Civil Registration and Citizenship Affairs assigns an “Identification Number for Foreigners” to foreigners granted a residence permit in Türkiye for any reason for at least six months.

1.1.4.1. Obtaining Foreign Identification Number

The foreign identification number is 11 digits long generally starting with “99...”. Foreign Identification Number can be found on the Residence Permit Card. Foreigners do not need to apply for this number separately because it is issued with a residence permit.

1.1.4.2. Areas of Use for the Foreign Identification Number

Foreigners mostly use this number to conduct their business and procedures in government institutions.

Foreign nationals may use this number for,

- Opening bank accounts,
- Certificate of Ownership Procedures,
- Notaries,
- Taxation Authority Procedures,
- Social Security Institution (SGK) Procedures and benefiting from General Health Insurance,
- e-government services (<https://www.turkiye.gov.tr/>)

1.1.5 Press Card Accreditation Procedures

The Directorate of Communications of the Republic of Türkiye is the institution responsible for accrediting press cards for international press members in Türkiye. In this respect, international press members assigned to Türkiye on a permanent or temporary basis are required to apply to the Directorate of Communications for accreditation procedures.

1.1.5.1. Temporary Accreditation

International media members who will come to Türkiye to cover news for less than three months are advised to visit the press officers of the Turkish Embassy in their countries first. Interview requests or other professional requests from relevant Turkish authorities can thus be arranged prior to the travel of media members.

International media members working in Türkiye on a temporary assignment should apply to the Republic of Türkiye Directorate of Communications for press credentials which are valid for three months.

Documents Required for Temporary Accreditation

- Application Form
- Letter of authorization from the applicant's organization confirming his/her assignment to Türkiye, including the purpose and length of visit.
- Photocopy of the passport
- Three passport-size photographs.
- Letter of introduction from the Embassy or Consular Office in Türkiye of the country where the organisation is based (for those who come directly to Türkiye).

After obtaining the aforementioned documents, a temporary accreditation application request may be created by sending them to the e-mail address 'pressaccreditation@iletisim.gov.tr'.

Please Note: The Republic of Türkiye Directorate of Communications is authorized to request additional documents which may be considered relevant. False statements in the application form or false documents may lead to the revocation of the press card.

1.1.5.2. Permanent Accreditation (For Long Term Stays)

International media members who have been working in Türkiye for more than three months and have obtained a work visa are considered eligible to apply for permanent accreditation.

Media members assigned to Türkiye should apply to the Republic of Türkiye Directorate of Communications to obtain a press card. An accredited media member will be granted a press card. Accreditations must be renewed annually at the beginning of the calendar year.

Press members who have their applications approved by the Directorate of Communications are given a 'Press Card for one year', which is valid from the date of application approval. For press members whose press card has expired towards/at the end of the year or whose press card has become invalid due to the expiry of their passport; if their term of office continues, they will need to re-apply by submitting the information and documents for the next year or for their extended passports, depending on the type of renewal.

Documents Required for Permanent Accreditation

The following documents must be submitted online via the accreditation portal to the Directorate of Communications of the Republic of Türkiye for the first-time applications and accreditation renewals:

First-time Application

- Application Form
- The “journalist” or “press member” visa to be obtained from the Embassies or Consulate Generals of the Republic of Türkiye in their countries, or the work visa to be obtained from the Ministry of Labour and Social Security for the members of the international press who are assigned to Türkiye on a permanent mission.
- Letter from the applicant’s organisation confirming his/her assignment to Türkiye as a journalist and the wage relation between the applicant and the press organisation (The letter in question must be no more than three months old and addressed to the “*Presidency’s Directorate of Communications*” with wet-ink signature and seal. This letter must include a statement indicating

that the media member's wage and related expenses are covered by the organisation to which he/she applied. The amount paid to the media member is not expected to be disclosed)

- Letter of introduction from the Embassy or Consular Office to Türkiye of the country where the organisation is based confirming his/her status as a media member (must be written in Turkish)
- Photocopy of the ID and visa pages of the passport (including the page indicating the last date of entry into Türkiye)
- Passport-size photograph (This photograph will be used on the press card)

Application for Accreditation Renewal

- Photocopy of the ID and visa pages of the passport (including the page indicating the last date of entry into Türkiye)
- Letter from the applicant's employer, confirming his/her assignment to Türkiye as a journalist and indicating the service-wage relation (It will suffice to state in the letter that the media member's wage and related expenses are covered on a regular basis by the organisation for which he/she works)
- Letter of introduction from the Embassy or Consular Office to Türkiye of the country where the organisation is based (This letter must be written in "Turkish")
- Passport-size photograph (This photograph will be printed on the press card)

- Photocopy of residence permit and extension pages
- Examples of professional work (Clippings and audio/visual tapes of journalistic works in Türkiye)

Please Note: The Republic of Türkiye Directorate of Communications is authorized to request additional documents which may be considered relevant. Applications that are not compliant with the Press Card Regulation will be refused. Following the renewal of the press card, the expired press card must be returned to the Republic of Türkiye DoC within one month. Upon the end of the assignment in Türkiye, the press card must be returned to the Republic of Türkiye DoC.

1.1.5.3. Opening of a Permanent Office and Employment of Resident Journalists by a Media Outlet

Institutional accreditations of media organisations fall outside the mandate and jurisdiction of the Directorate of Communications. Republic of Türkiye Directorate of Communications provides individual accreditation to media members employed by such organisations in accordance with the provisions of the Press Card Regulation. In this regard, foreign media outlets (radios, televisions, newspapers, magazines, and agencies) wishing to open an office in Türkiye must first seek permission from the Directorate General for Incentives, Practices, and Foreign Capital of the Ministry of Industry and Technology to open a representative agency or liaison office.

According to paragraph 1 of Article 33 of the Press Card Regulation, the Directorate of Communications can issue press cards to a maximum of seven international media members who work for foreign news and photography

agencies as well as television outlets in Türkiye, and a maximum of three media members who work for other organisations.

Turkish journalists working within this framework may apply for a Press Card as described below:

A- Press card can be issued to a maximum of one Turkish employee of each foreign broadcasting organisation without the need for a waiting period or an approval from the Press Card Commission. An application with the following documents must be submitted to our Directorate in order to be eligible for this quota:

- Press accreditation application form,
- One photograph,
- A certificate issued by the Embassy of the Republic of Türkiye in the country where the organisation broadcasts, proving the media organ's status as a national or international broadcasting organisation,
- Notary approved education certificate indicating at least a high school education or equivalence certificate if the diploma is issued in a foreign country,
- Letter of introduction from the Embassy or Consular Office to Türkiye of the country where the media organ is based,
- Official letter from the applicant's international media organ indicating the service-wage relation,
- Examples of professional work,
- Agreement signed between the organisation and the journalist.

Related documents are to be submitted to the Republic of Türkiye Directorate of Communications' nearest regional directorates based on the journalist's residence address, and the application evaluation procedure will begin.

B- If someone in the broadcasting organisation already has a press card that falls within the above-mentioned quota, other Turkish journalists of the broadcaster can apply for a press card using the link below:

<https://www.iletisim.gov.tr/turkce/basin-karti>

Journalists in this category are subject to waiting periods based on their educational level and can acquire their cards after the approval of the Commission. The following documents are required of applicants in this category:

- A statement generated by the system (signed and stamped by an official of the organisation),
- Agreement signed between the organisation and the journalist,
- Notary approved education certificate indicating at least a high school education (equivalence certificate if the diploma is issued in a foreign country),
- Statement of employment if he/she has recently started to work,
- Professional work to be uploaded to the system by title during the waiting period.

After the waiting period expires, the journalist submits a second application through the same method without approval from the Commission and the required statement is again sent to the Regional Directorate of the Presidency's Directorate of Communications of the Republic of Türkiye.

In addition, the Presidency's Directorate of Communications of the Republic of Türkiye may request additional documents for both types of applications.

1.1.5.4. Journalists Representing Two or More Media Outlets

According to clause (c) of Article 2 of the Press Card Regulation, media members “*who act in the name of one or more media outlets provided that they are not involved in any other profession than journalism*” can be accredited.

As a result, one press card can be issued and accredited in the name of one of the hiring organisations for an international media member, provided that he/she meets the criteria stipulated in Article 32 of the Press Card Regulation, based on the fact that it is not applicable to issue more than one press card for media members working in several organisations.

Moreover, an international media member must indicate the other organisations he/she works for and provide information about them in the form to be filled for accreditation application.

1.1.5.5. Turkish Media Members Engaging in Public Broadcasting

Turkish Media Members Engaging in Public Broadcasting may apply online by uploading the following documents to the system via the accreditation portal.

International media members working at the General Directorate of the Turkish Radio and Television Corporation (TRT);

- Photocopy of the ID and visa pages of the passport (Including the page indicating the last date of entry into Türkiye)
- “Document demonstrating education and position” to be obtained from TRT Human Resources Department (The document must include “job” definition)
- A passport-size photograph for printing on the press card

International media members working at the Anadolu Agency (AA);

- Photocopy of the ID and visa pages of the passport (Including the page indicating the last date of entry into Türkiye)
- Letter from the Anadolu Agency, confirming their assignment to Türkiye as a journalist and indicating the service-wage relation
- A passport-size photograph (This photograph will be printed on the press card)
- Agreement signed between the Anadolu Agency and the international press member

1.1.5.6. Media Members Acquired Turkish Citizenship

If the media members who work for a foreign media organization operating in Türkiye acquire Turkish citizenship, their applications are evaluated according to the procedure applied to journalists of Turkish nationality working for foreign media organizations.

1.1.5.7. Delivery of Press Cards

Press members working in İstanbul must receive their press cards from İstanbul Regional Directorate of the Directorate of Communications (Alemdar Mah. Divanyolu Cad. No: 42/1. Kat Sultanahmet/Fatih İstanbul); those in Ankara must receive their press cards from our headquarters (Kızılırmak Mah. Mevlana Bulvarı No: 144 Çankaya/Ankara).

The cards of the press card holders can also be handed over by the officials of our Regional Directorate's International Media Team, along with a wet-signed petition indicating the name and surname of the recipient.

Press cards are not mailed.

In case of holding an annual or temporary press card, the expired press card should be returned.

If any required documents in the accreditation application are missing, information about the missing documents is sent to the press member's e-mail address registered in the online accreditation system. Following the completion of the press member's accreditation application, he or she receives feedback via e-mail.

Depending on the workload of the Directorate, accreditation applications are processed as soon as possible, and press members are notified by phone or e-mail.

For all questions about accreditation, our Directorate can be contacted via the e-mail address **pressaccreditation@iletisim.gov.tr**; for questions and issues related to other professional works other than accreditation, please contact our Directorate at **presspoint@iletisim.gov.tr**.

When requests and questions are sent to both e-mail accounts 24/7, feedback on meeting the applicant's request will be provided as soon as possible.

1.1.5.8. Advantages of Holding a Press Card

Press card holders may enjoy the following advantages:

- Easy accreditation for a wide range of ceremonies, meetings, and events, particularly those of official nature,
- Allocation of a position in official ceremonies to facilitate his/her work,
- Free admission to museums, galleries, exhibitions, stadiums, hippodromes, and other similar venues,
- Discounted or free intra-city or inter-city transportation through vehicles operated by the state, municipalities, and villages or organisations affiliated to them,
- Discounts offered by contracted private sector organisations.

NOTE: The press traffic card is only issued to the press members of Turkish nationality.

1.1.5.9. Change of Residence

If a press member's residence address changes, they must notify our Directorate by sending an e-mail to pressaccreditation@iletisim.gov.tr. Following the notification, a new press card is issued with updated information. While receiving the new press card, the press card registered to the old address must be personally delivered to the Directorate of Communications.

1.1.5.10. Lost Press Cards

Article 38 of the Press Card Regulation outlines the steps to be followed by media members who lose their press cards or want to renew them when damaged.

Accordingly,

- (1) Those who have lost or damaged their press cards may apply to the relevant authorities as specified under Article 16 to obtain a new press card.
- (2) Those who have lost their press cards must include a copy of the newspaper advertisement announcing the loss, as well as an active service document, with their application.
- (3) Only two applications for a new press card in the event of loss or damage can be made in a calendar year.

1.1.5.11. Press Card Revocation

The press card of a media member will be revoked if

- He/she states false information in the application form,
- or
- He/she lets another person use his/her press card.

A new press card will not be issued for three years upon revocation.

1.1.5.12. Accreditations for Meetings and Ceremonies and Participation in Press Tours, Bilateral Meetings and Briefings

Press accreditation for events organized and coordinated by the Directorate of Communications, such as meetings and ceremonies, must be made online in compliance with the instructions outlined in the Announcements section of the Directorate of Communications' website.

Directorate of Communications of the Republic of Türkiye organizes historical and touristic programmes for resident international media members on a regular basis in order to bring them together with bureaucratic/diplomatic actors and opinion leaders working for non-governmental organisations.

Information is offered to media members who wish to participate via the e-mail address **presspoint@iletisim.gov.tr**. When the Directorate of Communications organises a meeting, conference, or briefing, media members are notified in writing or by phone about the nature, scope, and content of the agenda.

1.2.1.1. About the Directorate of Communications

The Directorate of Communications was founded as per Presidential Decree no.14 published on the Official Gazette dated July 24, 2018 and no. 30488.

One of the Directorate's main fields of activity is to make efforts for perception, narration, and adding meaning and value at all levels, for the national and international public, with an awareness of carrying out communication activities on a realistic, sustainable, and sound basis.

Our Directorate places a high value on close cooperation with international media as well as local and national media. Close follow-up of international media and think

tanks, evaluation, analysis, reporting and dissemination of the outputs, routine procedures such as press cards and accreditation, and development of these processes are carried out by our Directorate as well as the training of professional members, improvement of working conditions and increasing the educational, instructional, and stimulating contents of the mass media.

Our Directorate seeks to build a realistic perception of Türkiye in world public opinion by maintaining constant, qualified, and multifaceted relations with the international community, the media, and other institutions. It also implements an effective public diplomacy strategy in this context.

1.2.1.2. Central Contact Units

BIP Group

In order to ensure healthy, fast, and safer communication, our Directorate's International Media Team has created a group called "Communications Official" on the communication application BIP, comprised of international media members. All official announcements and information on scheduled briefings and press tours by the Directorate of Communications of the Republic of Türkiye are shared with international media members via this group.

Group link: <https://groups.bip.ai/share/2gzLCcNrMKsumJTmSmaQJgOtcv5LKhiD>

Requests for participation can be sent to presspoint@iletisim.gov.tr.

E-mail

The International Media Team can be contacted via two e-mail addresses.

pressaccreditation@iletisim.gov.tr

This e-mail address can be used to submit any questions regarding permanent or temporary accreditation requests.

presspoint@iletisim.gov.tr

This e-mail address can be used to submit any questions regarding matters other than accreditation processes, including

- Information requests on topics related to the agenda,
- Shooting requests,

1.2.2. Public Sector

1.2.2.1. Country Profile, State Structure, and Basic Organs of the State

The Constitution and Basic Organs of the State

The 1921 Constitution was the first constitution of the Turkish constitutionalism movement. The 1924 Constitution retained the basic principles of the 1921 Constitution, notably the principle of national sovereignty. As in the 1921 Constitution, the Grand National Assembly of Türkiye (the GNAT or the Parliament) was deemed the “sole representative of the nation”. The 1961 Constitution, on the other hand, introduced a bicameral Parliament: the National Assembly with 450 deputies and the Senate of the Republic with 150 members. The 1982 Constitution was passed by a national referendum and is still in effect today. Under the 1982 Constitution, sovereignty is vested fully and unconditionally in the nation.

The 1982 Constitution emphasises that the Turkish State, with its territory and nation, is an indivisible entity and a secular, democratic, social state under the rule of law. All individuals are equal without any discrimination before the law, irrespective of language, race, skin colour, gender, political orientation, philosophical creed, religion and sect, or any such consideration. The 1982 Constitution recognises all fundamental human rights and freedoms such as freedom of speech, freedom of the press, freedom of residence and movement, freedom of freedom of association, freedom of communication, the right to privacy, right to property, right to hold meetings and demonstration marches, right to legal remedies, the guarantee of lawful judgement and right to acquire information.

Since 2018, the Republic of Türkiye has been governed by the Presidential Government System. The new system, which was adopted by a national referendum, has a strict separation of powers. Legislative, executive and judicial powers are exercised in line with the framework outlined by the Constitution and laws. The new system has sharpened the distinction between the legislative and executive powers and strengthened the Parliament.

Legislative Power

Legislative power is vested in the GNAT on behalf of the Turkish Nation and cannot be delegated. The GNAT is composed of 600 deputies. Parliamentary elections are held every five years. Deputies represent the entire nation, and before assuming office, take an oath, the text of which is included in the Constitution.

Article 87 of the Constitution outlines the functions and powers of the GNAT as follows:

- To enact, amend, and repeal laws,
- To supervise vice Presidents and ministers,

- To debate and approve the budget bills and final accounts bills,
- To decide on the printing of currency,
- To decide to declare war,
- To approve the ratification of international treaties,
- To decide for amnesties and pardons,
- To exercise the powers and carry out the duties stipulated in other articles of the Constitution.

Executive Powers

The Republic of Türkiye has a presidential government system, and the executive powers are vested in the President. In this regard, the duties and powers of the President are as follows:

- The President is the head of state. The executive power is vested in the President.
- The President, in his/her capacity as the Head of State, represents the Republic of Türkiye and the unity of the Turkish Nation, ensures the implementation of the Constitution and orderly and harmonious functioning of the state organs.
- The President delivers the opening address of the GNAT on the first day of the legislative year if he/she deems it necessary.
- The President gives a message to the Parliament regarding domestic and foreign policies of the country.
- The President promulgates laws.
- The President returns laws to the GNAT to be reconsidered.

- The President appeals to the Constitutional Court to annul in part or entirety of specific provisions of laws and the Rules of Procedure of the GNAT on the grounds that they are unconstitutional in form or content.
- The President appoints and dismisses Vice Presidents and ministers.
- The President appoints and dismisses the high-ranking government executives and regulates the procedures and principles governing their appointment by a presidential decree.
- The President accredits representatives of the Republic of Türkiye to foreign states and receives foreign states' representatives appointed to the Republic of Türkiye.
- The President ratifies and promulgates international treaties.
- The President holds referendums for laws on constitutional amendments if he/she deems it necessary.
- The President determines national security policies and takes necessary measures.
- The President represents the Commander-in-Chief of the Turkish Armed Forces on behalf of the GNAT.
- The President decides on the mobilization of the Turkish Armed Forces.
- The President commutes or remits the sentences on the grounds of chronic illness, disability or old age.
- The President may issue presidential decrees on matters pertaining to executive power. A presidential decree shall not regulate the fundamental rights and rights and duties of the individual outlined in the first and second

parts of chapter two and the political rights and duties outlined in the fourth chapter of the Constitution. No presidential decree shall be issued on matters expressly stated in the Constitution to be governed solely by law. No presidential decree shall be issued on matters that are expressly regulated by law. In case of a discrepancy between provisions of the presidential decrees and the laws, the provisions of the laws shall prevail. A presidential decree becomes null and void if the GNAT enacts a law on the same matter.

- The President may issue regulations to ensure the implementation of laws, provided that regulations are not contrary to it.
- Decrees and regulations shall come into effect on the date of publication in the Official Gazette unless a later effective date is specified.
- The President shall also exercise powers of election and appointment and perform the other duties conferred on him/her by the Constitution and laws.
- A person may be elected as the President for a maximum of two terms.

Vice Presidents and Acting for the President of the Republic

- After being elected, the President may appoint one or more vice presidents.
- If the presidential office becomes vacant for any reason, the presidential election shall be held within forty-five days. The Vice President of the Republic of Türkiye shall act as and exercise the powers of the President of the Republic until the next President of the Republic is elected. If one year or less remains for the general election, the election for the Grand National Assembly of Türkiye is renewed together with the presidential election. If more than one year remains for the general election, the President of the Republic of Türkiye continues to serve until the election date of the Grand

National Assembly of Türkiye. This period is not counted as the presidential term with respect to the President of the Republic who completed the remaining period. Both elections shall be held together on the date of the general elections of the Grand National Assembly of Türkiye.

- In cases where the President of the Republic is temporarily absent from his/her duties on account of illness or travelling abroad, the vice president acts as the President of the Republic and exercises his/her powers.

Ministries

- The establishment, abolition, duties and powers, the organizational structure of the ministries, and the establishment of their central and provincial organizations are regulated by the presidential decree.

Jurisdiction

Judicial power is exercised by independent and impartial courts on behalf of the Turkish Nation. The judicial section of the Constitution is based on the principle of the rule of law. The judiciary is founded on the principles of the independence of the courts and the security of the tenure of judges. Judges rule on the basis of constitutional provisions, law and jurisprudence. The highest judicial authority among the Jurisdiction Bodies is the Court of Cassation, the highest judicial authority among the Administrative Jurisdiction Bodies is the Council of State, and the highest judicial authority of the Constitutional Jurisdiction is the Constitutional Court. The Supreme Election Council, as described by the Constitution's "Legislative Power" section, is not a council tasked solely with general administration and inspection of elections. It is a mixed, independent, highest judicial authority that performs judicial review and comprises members nominated by the Court of Cassation and the Council of State.

Legislative and executive organs must comply with court

decisions; these organs can neither alter them in any respect nor delay their execution.

The supreme courts of the Republic of Türkiye are the Constitutional Court, the Court of Cassation, the Council of State, the Court of Jurisdictional Disputes and the Court of Accounts. Furthermore, it adopts the judgements of the European Court of Human Rights. Three members of the Constitutional Court are appointed by the Parliament; twelve members are appointed by the President of the Republic. Eight of twelve members are appointed among candidates nominated by the Council of State, Court of Cassation and the Council of Higher Education, and four of them are directly appointed by the President of the Republic.

The website <https://www.askturkiye.com/en> created by the Türkiye Promotion Group under the Ministry of Trade provides valuable sectoral content that will attract international investors, as well as profile information of Turkish exporter companies.

1.2.4. Media and Communication Sector

1.2.4.1. Media Profile in Türkiye

In Türkiye, the media is a highly competitive industry operating under free-market conditions and encompasses national and foreign media outlets that express diverse viewpoints. There is a vast area of freedom in owning a media outlet. Türkiye publishes 2,474 newspapers, 3,650 periodicals and broadcasts 899 radio stations and 108 television channels as of May 2019. These figures include media outlets that broadcast on a local, regional and national scale. Local media is quite influential in Türkiye, reflecting the fact that democracy begins at the local level. Approximately every city has a local newspaper, television and radio station. A strong media sector generates both public responsibilities and a massive economic area. In fact, according to data from the Association of Advertising Agencies, media and advertisement investments totalled 7 billion 867 million TL in the first six months of 2020, and media investments totalled 6 billion 294 million TL in the first six months of this year.

The following are the major media groups in Türkiye:

- Albayrak Media Group
- Ciner Media Group
- Demirören Media Group
- Doğuş Media Group
- İhlâs Holding
- Turkuvaz Media Group
- Türk Media Group

Public television broadcasting exists in Türkiye, as it does in many other countries, and is carried out by the Turkish Radio and Television Corporation (TRT). With its autonomy and impartiality written into the Constitution, TRT serves as a public service broadcaster operating on all media platforms through radio and television. Currently, TRT broadcasts via 14 television channels, 14 radio channels, trt.net.tr website and www.trtvotworld.com website prepared in 41 languages, and publishes with five printed periodicals in Türkiye and around the world.

Journalism is considered as one of the prestigious occupations in Türkiye. Furthermore, the personal rights of journalists are safeguarded by the law no. 5953 (Press Labour Law) on the Regulation of Employment Relations between Press Employees and Employers regulates the working conditions and rights of journalists. The Republic of Türkiye is quite liberal in the field of media. Article 26 of the 1982 Constitution governs the freedom of thought and opinion, and Article 28 regulates the freedom of the press.

According to the first two paragraphs of Article 28 of the Constitution, *“The press is free, and shall not be censored. The establishment of a printing house shall not be subject to prior permission or the deposit of a financial guarantee. The State shall take the necessary measures to ensure freedom of the press and information.”* Therefore, the freedom of the press is under a constitutional guarantee. Moreover, Press Law no 5187, which entered into force in 2004, regulates the freedom of the press and the exercise of this freedom.

2. Practical Information For Daily Life

2.1. Transportation and Accommodation

2.1.1. Transportation

2.1.1.1. Getting HES Code

Due to the pandemic, HES Code is required to use intracity and intercity transportation services and in some cities, for entrance to areas such as public buildings, shopping malls, market places, public transport vehicles, etc., by the administrative decision taken.

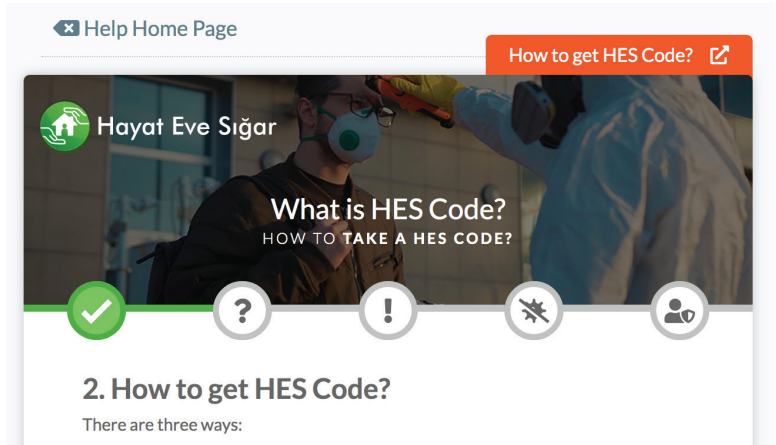

HES Code

HES (Life Fits into Home) Code is a code that allows you to securely share with institutions and individuals whether you carry any risk for Covid-19 in your activities such as transportation or visits within the scope of controlled social life. The HES codes you share can be queried through the application or the services provided to the institutions. This code only serves to reduce the risk of infection you will encounter during your time in intercity public transportation vehicles. Covid-19 patients or contacted individuals will not be able to use public transportation. It is used to inform you in case other people you travel with later test positive for Covid- 19. The HES codes you produce are under your control. You can share your HES codes as long as you want or delete them.

Obtaining a HES Code for Foreign Passengers Through SMS

It can be obtained by writing HES (space) Nationality (space) Passport Serial Number (space), Year of birth (space) Surname(space), the validity period for the code (as day) and sending it as SMS to **2023**.

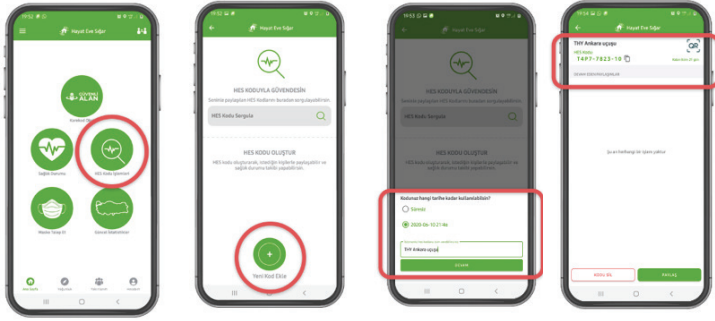

Persons with foreign identity of the Republic of Türkiye (starting with foreign identity number 97, 98, 99); can obtain by writing HES (space) foreign identification number (space) Year of birth (space) the validity period for the code (as day) and sending it as SMS to **2023**.

The screenshot shows the Hayat Eve Sığar application interface. At the top, there is a 'Help Home Page' link and a 'How to get HES Code?' button with an external link icon. The main content area features a video thumbnail with the text 'What is HES Code? HOW TO TAKE A HES CODE?'. Below the video are five circular icons: a green checkmark, a question mark, an exclamation mark, a crossed-out person icon, and a person icon. The section is titled '2. How to get HES Code?' and states 'There are three ways:'.

Through Hayat Eve Sığar Application

Open the “Hayat Eve Sığar” application and go to the “HES Kodu İşlemleri (HES Code Transactions)” section. Click on the “HES Kodu Oluştur (Create HES Code)” button. Select the validity period for the code and create your code.

The travel company queries the person's health condition by the HES code; if there is any risk, the travel is not approved. If there are people who did not have a risk during their travel but later became risky, it is communicated with the people within contact distance, and health and guidance services are provided. For more information visit: <https://hayatevesigar.saglik.gov.tr/hes-eng.html>

2.1.1.2. Intracity Transportation

Public Transportation

» **Municipal Bus and Public Bus**

Municipal buses operating in city centres are the most commonly used form of public transport, providing access to the highest number of points in Türkiye. This service, which is provided directly by municipalities in some cities, is provided by private enterprises via public buses in others.

Use of Municipal Buses

In every city, it is necessary to obtain different transportation cards (İstanbulkart in İstanbul, Ankarakart

in Ankara) in order to use the municipal buses. With these cards, you can use all public vehicles offered by the municipality, except for minibuses operated by individuals.

** Media members with press cards are eligible for free transportation cards if they present their press cards, a passport-size photo, and their passports to the relevant municipal offices.*

If your name does not appear on the system during the application for a transportation card, you must enter your press card number into the search box on the webpage <https://bkbasvuru.iletisim.gov.tr/BasinKartlari/KartSahipleriYabanci> of the Directorate of Communications' official website and present your search result to the IETT (İstanbul Electrical Tramway and Tunnel) officer.

Intracity Transportation by Bus in İstanbul: Generally, the municipal buses operate from 05.00 in the morning until 01.00 at night in İstanbul. However, these hours may vary from line to line. For detailed information on public transportation in İstanbul, you can check the IETT (İstanbul Electrical Tramway and Tunnel) website (<https://www.iett.istanbul/en>).

Intracity Transportation by Bus in Ankara: Municipal buses in Ankara operate from 05:30 in the morning until midnight. However, municipal buses run 24 hours on some lines. You can check the bus lines and departure times on the EGO (Ankara Electricity, Gas and Bus Operations) website (<https://www.ego.gov.tr/en>).

** There may be changes in the number and schedule of buses due to the pandemic*

» Dolmuş – Minibus

After bus transportation, dolmuş or minibus is one of the most commonly used public vehicles. These vehicles are individual private vehicles that provide transportation with permission from the municipality. Pricing may vary depending on the distance. The transportation cards obtained from the municipality are not valid for minibuses. Instead, the transportation fee is paid in cash directly to the driver of the minibus.

» Metro

There are metro lines in several cities in Türkiye. İstanbul has the most sophisticated metro line. In the city, which

currently has a 92-kilometre urban metro line, the metro network will grow even more with the completion of new lines under construction. Besides, Marmaray, which passes under the Bosphorus, is the only metro line in the world that connects Asian and European continents. Capital Ankara has the second most sophisticated metro line. The length of the metro network in the city is approximately 55 kilometres. There are different transfer points in metro networks in both cities. By using these transfer points, you can easily reach destinations that cannot be reached by metro.

» Metrobus

“Metrobus”, which is unique to İstanbul, is the name given to buses operating in metro format. According to this, metro buses have their own lane on main urban roads. Therefore, in this lane, the metro bus provides smooth and rapid transportation without getting stuck in traffic. The metro bus is also integrated with other transportation means in İstanbul, such as ferries, metro, and municipal buses. Thanks to this integration, you can quickly transfer to different vehicles and easily reach your destination.

» Marmaray

The Marmaray line, which serves between İstanbul Halkalı and Gebze, consists of 43 stations in total. Marmaray, which has connections to metro and high-speed train lines, has a capacity of 333 services on weekdays. The line which reduces the travel time between Europe and Asia to 4 minutes makes a significant difference in a crowded and traffic-dense city like İstanbul.

» Ankaray

Ankaray is a light rail system operating in Ankara. The length of the line is 9.5 kilometres, and there are eleven stations on the line.

» Başkentray

Başkentray is a Commuter Train system operated by TCDD (Turkish State Railways) between Sincan and Kayaş in Ankara. There are 24 stations on the 37,472 km long suburban line.

» Tramway

Tramway is a means of public transportation that we encounter in various cities across Türkiye with a nostalgic atmosphere and a simple and convenient means of

transport in the city. Especially in cities such as İstanbul, İzmir, Ankara, Bursa, Eskişehir, Kayseri, and Gaziantep, tramway transportation is more common than in other cities. In addition, the tramway, which runs on İstiklal Avenue, one of the busiest places in İstanbul, while being used as a touristic vehicle of nostalgia, still facilitates transportation from one end of the avenue to the other.

» Ferry

Sea transportation is also one of the alternatives that one should consider in terms of urban public transportation. Since Türkiye is a peninsula surrounded by the sea on three sides, means of sea transportation are also offered as a form of public transport. Especially in İstanbul and İzmir, transportation by ferry is quite common. On the ferry lines in İstanbul, you can both travel from the Asian side to the European side and enjoy the historical silhouette of İstanbul to repletion.

» Cable Car

There are 2 cable car lines in İstanbul including TF1 Maçka-Taşkışla and TF2 Eyüp-Piyer Loti. Maçka-Taşkışla line provides service with 4 cabins, with 2 cabins in one direction, each carrying 6 people. The line provides 90 trips a day with a journey time of 3.5 minutes and a frequency of every 5 minutes. Eyüp-Piyer Loti line was built to facilitate access to Pierre Loti Hill, which has many historical buildings around it and hosts local and foreign tourists with its unique Golden Horn view. The line, which operates every 5 minutes, has 2 cabins in one direction and 4 cabins in total, each with a capacity of 8 people. The cable car used in public transport in Ankara carries passengers between Yenimahalle and Şentepe.

Individual Transportation

» Taxi

Taxis are very popular, particularly in the three largest cities of Türkiye. As a result, in Istanbul, where there are 17,330 taxis, there is one vehicle for every 865 people, and in Ankara, where there are 7,701 taxis, there is one vehicle for every 585 people. Taxi fare consists of the sum of the taximeter opening and mileage fees. Taxi fares differ between cities.

» Rent a car

Car rental has widespread use in Türkiye, especially in İstanbul and Ankara. It is possible to access the information of member car rental companies on the website (<http://tokkder.org/uyelik/uyeler>) of the Auto Leasing and Rental Companies Association (TOKKDER).

» Private Vehicle Use

Validity of the Driver's License

Foreign nationals with foreign licenses may drive a vehicle in Türkiye for a maximum of six (6) months. At the end of the six-month period, if they intend to stay and drive, their foreign driver's license must be replaced with a Turkish driver's license.

Countries with Driver's License Convertible to Turkish Driver's License

In our country, a driver's license can only be converted if the holder is a citizen of one of the 84 countries that are parties to the Convention on Road Traffic and that have signed an agreement on the mutual exchange of driver's licenses. Driving licenses obtained from countries outside of this agreement cannot be converted into Turkish driving licenses. Those with a driver's license from a country not listed in the table must attend driving license courses and obtain a new driver's license in order to drive in our country. The countries with which we have mutual agreements and whose driving licenses can be converted are shown in the table below.

Converting Foreign Driver's License to Turkish Driver's License

The transaction of converting a foreign driver's license to a Turkish driver's license is carried out at civil registration directorates. In order to carry out your transactions, you must first schedule an appointment.

You can get an e-appointment at <https://randevu.nvi.gov.tr/> by clicking on the “**Driver's License (Sürücü Belgesi)/ Make an Appointment (Randevu Al)**” heading on the second tab.

After making an appointment, you can attend your appointment by preparing the following documents:

- Original and colour photocopy of the foreign driver's license,
- Turkish translation approved by a notary or consulate,
- Identity card,
- Driver health report,
- Driver's license valuable paper and transaction fee, foundation share,

- 1 biometric photo,
- Document or written statement indicating the blood type,
- Education certificate, notary approved translation of education certificates issued abroad,
- Criminal Record Certificate (It is checked online through the system).

Other Things to Know About Converting Foreign Driver's License to Turkish Driver's License

The condition of being a non-convict, as well as the conditions concerning age, education, and health specified in Article 41 of the Law numbered 2918, are required in the same way for those who will convert their driver's licenses, with the exception of the training and examination requirement in the same article. Only for foreign nationals with the diplomatic exemption is their written declaration that they meet the necessary conditions taken as predicated; however, articles of bilateral or multilateral agreements and applications are reserved in this regard.

If deemed necessary, the accuracy of the driver's license can be verified through the Ministry of Foreign Affairs or representations in foreign countries. Foreign driver's licenses obtained on a temporary basis cannot be converted.

To use motorized bicycles, motorcycles, wheeled tractors, construction machinery, or automobile type vehicles, foreign nationals are issued a class B driver's license in exchange for the driver's licenses they received from countries that are parties to the Convention on Road Traffic.

If they are authorized to drive the vehicles in question with a trailer on their driver's license, it is replaced with a class BE driver's license. Training and examination conditions are required for all other classes of driver's licenses other than these if requested.

When you want to get a driver's license in a different class than the one you obtained in a foreign country, you must first convert your current foreign driver's license to a Turkish driver's license. Driver's licenses obtained from foreign countries and exchanged for Turkish licenses are returned to the original country. If you drive with a foreign driver's license without complying with these conditions, you will face legal action under Article 39 of the Law numbered 2918.

Travelling in Türkiye by Your Private Vehicle

Vehicles with foreign license plates passing through toll highways and bridges in our country must be subscribed to Automatic Passage System (OGS) and Fast Passage System (HGS) and have a balance in their OGS / HGS accounts sufficient to cover the toll fee in order to avoid being penalized.

To avoid being fined, owners of vehicles who pass through the highways and bridges operated by the Directorate General of Highways, without an OGS / HGS account or with an insufficient balance in their accounts, not to be fined, should open an OGS / HGS account within 15 days from the date of the transition, ensure that their account is at least sufficient to cover the toll fee or pay the toll fees for foreign plate vehicles through the **“Foreign License Plate Vehicle Payments (Yabancı Plakalı Araç Ödemeleri)”** menu in the **“Fast Payment (Hızlı Ödeme)”** section of the

interactive Tax Office (ivd.gib.gov.tr) homepage. Otherwise, these vehicles will not be allowed to leave the country at the customs gates without paying the transit fees if they attempt to exit through the customs gates within 15 days from the violation date.

Furthermore, foreign license plate owners who do not pay the toll within 15 days of the violation date are also required to pay the toll and administrative fines via the interactive Tax Office (ivd.gib.gov.tr).

Vehicles with foreign license plates that have passed with violations must pay the toll fees and administrative fines through the interactive Tax Office as described above before arriving at the customs gates to avoid queuing.

Railroad

TCDD Transportation, which connects different cultures and cities, offers the opportunity for comfortable and safe travel with the mainline trains. On mainline trains, it is possible to choose one of the pullman-couchette-sleeper wagons added in line with the travel time and passenger demands and to meet the food and beverage needs from the dining wagon.

High-Speed Trains (YHT) make intercity transportation easier by allowing you to travel faster and more economically than road transportation. They are divided into three types of wagons: economy, business, and dining.

While construction continues on different routes, currently available lines are as follows:

- Ankara-İstanbul-Ankara YHT
- Ankara-Eskişehir-Ankara YHT
- Ankara-Konya-Ankara YHT
- Konya-İstanbul-Konya YHT

Regional train tickets are sold on the day of travel, whereas mainline train tickets can be purchased 30 days in advance of the travel date through all sales channels (ticket office, internet, and call centre). Tickets can be purchased at ticket offices, by mobile phones, at a call centre, or online.

2.1.2. Accommodation

2.1.2.1. *Hotel, Hostel etc. Accommodation*

The list of Accommodation Facilities certified by the Republic of Türkiye's Ministry of Culture and Tourism, as well as those certified by the Municipality on the basis of province and district, can be accessed, and detailed information about them can be obtained via the website of the Türkiye Tourism Promotion and Development Agency (<https://tga.gov.tr/search-hotel-category-en/>), which is affiliated to the Ministry of Culture and Tourism.

2.1.2.2. *Renting a House*

In our country, people who are not citizens of the Republic of Türkiye may reside as tenants, provided that they meet certain conditions. First of all, a rental contract for renting houses to foreign nationals in Türkiye must be signed. Although most of the information in the contract is common to all tenants, there are some differences for foreign nationals.

Rental Contract

The rental contract is a legal agreement that protects the rights of the property owner and the tenant. The rental contract, which is also called a lease contract, includes the following sections:

- Information on the tenant and the property owner
- Information on inventory such as house and apartment keys or household items delivered with the rented real estate

Information to be included in the Rental Contract Made with Foreign Nationals

The rental contract includes terms that provide details on the property owner and the tenant as well as the liabilities of the tenant. The items that should be included in the rental contract when renting a house to foreign nationals are as follows:

- Apartment,
- Neighbourhood,
- Street and its number,
- Type of thing rented,
- Landlord's name, surname/title,
- Landlord's TR identity number and tax number,
- Landlord's residential address,
- Tenant's name, surname/title,
- Tenant's TR identity number and tax number,

- Tenant’s residential address,
- Tenant’s workplace address,
- Payment amount for one month rent,
- Payment amount for one year rent,
- Payment method of the rent,
- Rental period,
- Starting date of the rent,
- Current status of the rented item,
- What the rented property will be used for.

When renting a house to foreign nationals in Türkiye, identity number information for foreign nationals must be entered into the section for the tenant’s TR identity number in the rental contract. The identification number for foreign nationals can be obtained from the Ministry of Interior Directorate General of Civil Registration and Citizenship Affairs, Foreign National Identity Number Inquiry page (<https://tckimlik.nvi.gov.tr/Modul/YabanciKimlikNoSorgula>). If the foreign national who will rent the real estate does not have a foreign identification number, information about the application can be obtained from the Republic of Türkiye İstanbul Governorship Transactions page.

Special Terms of Rental Contract

The special terms section at the end of the rental contract includes various terms that protect the rights of the property owner and the tenant and set out their obligations:

Rent increase

While the annual increase in rent depends on the terms of the contract signed between the landlord and the tenant, it also depends on the consumer price index (CPI) and inflation figures as per law. According to the law, the rent increase rate is regulated according to Article 344 of the Code of Obligations. This article was amended on January 18, 2019. The provisions of the law stipulate that the monthly rent increase must be in accordance with the law. If the increase is higher than the 12-month CPI (Consumer Price Index) rate average, the tenant has the right to object to this increase.

2.1.2.3. Housing Purchase

Contracts enabling the transfer of immovable property in Türkiye are made only by Directorates of Land Registry. Whether there is a restriction such as a mortgage, lien, etc., on the immovable or whether there is an obstacle to the sale of the immovable should be checked at the relevant Directorate of Land Registry. It is possible to inquire about the immovable property by entering the city, district, neighbourhood/village, city block, and parcel information at <http://parselsorgu.tkgm.gov.tr>. Thus, basic data, other than the personal information about the immovable property, can be accessed from anywhere in the world, including its soil survey, on the internet. A foreign national does not need a residence permit in order to purchase immovable property in Türkiye. In addition, foreign nationals who have immovable property in Türkiye are issued short-term residence permits for a duration of up to one year in accordance with the Law on Foreign nationals and International Protection No. 6458.

In case of any dispute between the parties concerning the purchase of immovable property, the case must be brought before the judicial authorities, and a lawsuit must be filed in the courts where the immovable is located. In order to ensure that Turkish citizens living abroad and foreign nationals can carry out the land registry and cadastre transactions from the country they are in, foreign representation offices, initially in 12 countries, are being established by the Directorate General of Land Registry and Cadastre. In this context, land registry and cadastre transactions are conducted in relevant Land Registry, and Cadastre Representative Offices, and immovable properties located in Türkiye can be bought and sold in

these representative offices. A real or legal person wishing to purchase immovable property in Türkiye should apply to the Directorate of Land Registry together with the owner of the immovable. In addition, an appointment can be made without going to the directorates for transactions by calling **Alo 181** Call Center, which is accessible seven days, 24 hours a day, or via the internet address <http://randevu.tkgm.gov.tr>.

Foreign national real and legal persons should apply to the Directorates of Land Registry, foreign-capital companies should apply to the governorship of the place where the property is located, and Turkish companies with foreign capital should first apply to the Directorate of Provincial Planning and Coordination where the property is located, and then apply to the Directorate of Land Registry after receiving a positive reply. These companies can apply in person, by mail, or by e-mail. In case they have hesitations, they can request information from the Republic of Türkiye Embassies/Consulates and the Directorate General of Land Registry and Cadastre.

Those who want to purchase immovable property in Türkiye can access all kinds of up-to-date data, learn about the application channels and processes through the portal “**YourKeyTurkey**”. All legal and technical questions of investors are answered within one workday through the portal, which runs in 6 languages, including English, German, Arabic, French, Russian, and Spanish.

You can view the real estate rental and sale announcements on <http://www.emlakkutusu.com/>, the web page of the Ankara All Real Estate Agents Chamber affiliated to Türkiye’s All Real Estate Agents Federation.

2.1.3. Subscription Procedures

For subscription procedures after renting or purchasing a house, the rental contract or title deed of the house, your identity card, and old invoice are usually required. In addition, water, electricity, and natural gas subscription transactions, during which they check whether you have the compulsory earthquake insurance (DASK) or not, cannot be made without a DASK policy. The beneficial owners, owners, or tenants can take out compulsory earthquake insurance.

2.2. Communication and Culture

2.2.1. Turkish Language and Culture

The geographical area where Anatolia is located has witnessed the foundation and development of many civilizations; it has gone through a historical process during which great empires faced devastating wars for centuries for its fertile lands and strategic importance. In addition, it has been one of the most dynamic regions of the world in every age, with its location that enables the transition from Western Europe to Far Asia.

These lands have witnessed many stages of human history, such as the first settled life in history (Çatalhöyük), the first temple (Göbeklitepe) identified, and the discovery of money. Two of the seven wonders of the world are located on the Anatolian shores of the Aegean. Türkiye is home to many important examples of architecture, such as ancient theatres, bridges, churches, mosques of various ages. Different cultures, civilizations, philosophical and mystical

thoughts were born, developed, and coexisted here. Under the Ottoman Empire, which ruled for 600 years after the Roman and Byzantine Empires, these lands underwent the most advanced political, economic, cultural, and architectural phases.

All these assets make Türkiye the owner of a tangible and intangible cultural heritage that is rare in the history of civilization.

2.2.1.1. Turkish Knowledge

Turkish language, which has a history of approximately 6 thousand years, belongs to the Ural/Altaic language family. Today, it is spoken by about 250 million people in many countries, from Eastern Europe to China. With this feature, Turkish is the 5th most spoken language in the world. Turkish has interacted and exchanged words with developed languages such as Arabic, Persian, English, and French depending on historical, political, and cultural relations. Turkish has characteristic features such as being an agglutinative language and having vowel harmony. Throughout history, it has been written in different places in Gokturk, Uighur, Cyrillic, and Arabic alphabets. The use of the Latin alphabet in Türkiye began in 1928.

2.2.1.3. Turkish Language Teaching

Since 2009, the Yunus Emre Institute, which has more than 40 cultural centres around the world, has been teaching the Turkish language, culture, art, and history to people of all professions and ages. The institute trains lecturers, who are experts in their fields, through certificate programmes organized in view of the needs for teaching the Turkish language to foreigners, and it develops basic and supplementary course tools in the light of modern language teaching methods. Based on the experience gained in the field, the Yunus Emre Institute designs educational materials that address individuals of different ages and professional groups. Within this scope, the institute has prepared “Yedi İklim Türkçe Öğretim Seti (Seven Climate Turkish Set)” for adults.

2.2.1.4. Turkish Culture

The cultural structure of Türkiye consists of the accumulation of very rich and diverse cultures from the depths of its history. Due to its geographical location, Türkiye is at the heart of different cultures such as the East, West, Middle East, Mediterranean, Islamic culture. Anatolia, one of the oldest settlements globally, has a unique cultural richness with a history of thousands of years and the influence of many diverse cultures that had existed in its history. This richness is so diverse that we can see the cultural differences caused by it even in settlements close to each other.

For detailed information on Turkish culture, please visit the website of the Ministry of Culture and Tourism: <https://www.ktb.gov.tr/EN-98538/culture.html>

2.2.1.5. Turkish Cuisine

Turkish cuisine, one of the richest cuisines globally, has evolved after combining cooking habits in Central Asia with the food culture in Anatolia and survived to this day. Turkish cuisine, which is also the heir of the Ottoman food culture, has influenced Balkan and Middle Eastern cuisines and has been influenced by them. Turkish cuisine has many regional varieties such as Black Sea, Aegean, Thrace, Southeast, and Central Anatolia. It promises more than kebabs and döner with its cooking methods, variety, and taste. Soups, salads, pickles, dishes with olive oil, pastries, rice are unique tastes of Turkish cuisine. Seafood, game meat, chicken dishes, meatballs, stews, kebabs, grills, roasts, and boiled meat offer the best examples of meat dishes.

If you want to taste these flavours, you can visit the website of Türkiye Tourism Promotion and Development Agency (<https://tga.gov.tr/search-cafe-category>) and find detailed information about the restaurant/café facilities certified by the Ministry of Culture and Tourism of the Republic of Türkiye as well as the ones certified by local municipalities

2.2.1.6. Tourist Attractions

For detailed introductory information about tourist attractions in Türkiye, please visit the website <https://www.goturkey.com/> of the Ministry of Culture and Tourism or the website <https://www.ktb.gov.tr/EN-99216/tourism.html>.

2.2.2. Communication

2.2.2.1. GSM Companies

There are approximately 81 million mobile subscribers in Türkiye as of May 2020. In this context, there is a highly competitive environment among operators and a race for service quality. You can find information about existing mobile companies and their contact details below:

2.2.3. Schools and Education

2.2.3.1. Schools for Foreigners

Foreign students who plan to live in Türkiye have access to convenient and comprehensive education at international schools. The curriculum of international schools around the world is the same; therefore, students learn easily and smoothly. Other languages taught at international schools in addition to English, provide many advantages to students to achieve greater goals in their careers.

International accreditations are very important when choosing a school. Two of the international accreditations are widely used in Türkiye.

84 schools are authorised to offer **International Baccalaureate** programmes in Türkiye. These schools teach in English, German, Turkish and other languages.

You can find the IB schools in Türkiye on this website:

<http://www.ibo.org/programmes/find-an-ib-school/>

The **Council of International Schools** is the world's largest non-profit council of international schools for primary and secondary education. Today, they have 758 members worldwide, providing an easier transition for students from globally mobile families.

A total of 27 of these schools are located in Türkiye; 15 in İstanbul, 1 in Ankara, 5 in İzmir, and 3 in Adana. For more information about the schools, please visit

<https://www.cois.org>

2.3.3. Tax Treatments

Foreign-national real persons are registered as taxpayers and given a taxpayer identification number if they apply to the tax authority, where the tax obligation will be established due to the activities requiring that obligation, by submitting the notarized copy of their passports or the original and a photocopy of their passports along with the required documents in the annex to the notice of starting a business to be approved by the tax authority.

Main transactions requiring the tax identification number are as follows;

- Notary transactions
- Proceedings to be carried out as per Enforcement and Bankruptcy Law
- Title deed transactions
- Registration procedures to be carried out under the Highway Traffic Law No. 2918
- Banking and financial service transactions
- All types of bond, bill, and debt instrument transactions
- Credit card reader transactions
- Remittance transactions
- Check and note transactions
- Transactions to be carried out by institutions within the scope of the Capital Market Board
- Lending transactions
- Transactions to be made by private financial institutions

- Transactions made by authorized institutions (including those made by banks, private financial institutions, and post offices - in effective/foreign currency buying and selling transactions amounting to \$3,000 or equivalent to that amount)
- Post office transactions
- Financial leasing transactions
- Insurance transactions

As part of the fight against the novel coronavirus (Covid-19), persons who are not the citizens of the Republic of Türkiye will submit their requests for a potential tax identification number via the interactive Tax Office's website <http://ivd.gib.gov.tr>, and potential tax identification numbers will be electronically generated and certified official documents will be submitted through the said application. Therefore, people, who are not citizens of the Republic of Türkiye, no longer need to apply to the tax authorities to obtain a potential tax identification number.

The image is a composite of two parts. On the left is a promotional banner for the Istanbul Tax Authority (İstanbul Vergi Dairesi Başkanlığı). The banner features the authority's logo and the text: "POTENTIAL TAX IDENTIFICATION NUMBER FOR NON-CITIZENS IS JUST A CLICK AWAY APPLY ONLINE RIGHT NOW!!!". Below this, there is a cartoon illustration of a woman holding a laptop and a smartphone, with a speech bubble saying "No going to tax office!! No queue!!". A QR code is visible in the bottom left corner. 2.4. Health and Safety

2.4.1. Insurance and Health Proceedings

2.4.1.1. Healthcare System in Türkiye

Healthcare services in Türkiye consist of a mix of public and private healthcare services. Türkiye has universal healthcare services under the Universal Health Insurance system. Türkiye is an important medical tourism destination that was visited by approximately 178 thousand tourists for health purposes in the first six months of 2018. 67% of foreign patients preferred private hospitals, 24% preferred public hospitals, and 9% preferred university hospitals. The Regulation on International Health Tourism and Tourist Health came into force on July 13, 2017. It only applies to those coming specifically for treatment.

2.4.1.2. Private Health Insurance

Countries having bilateral agreements (Germany, the Netherlands, Belgium, Switzerland, Austria, and Luxembourg) can receive healthcare services from private and public hospitals in accordance with the legislation of the Social Security Institution.

Unless otherwise indicated in bilateral or multilateral social security treaties to which Türkiye is a party, foreigners who do not benefit from the universal health insurance system must have private health insurance covering inpatient or outpatient treatment as well as medical expenses for one-year or longer residence permit applications under the Law No. 5510 on Social Insurance and Universal Health Insurance.

In cases where all requirements are met, foreigners under the age of 18 (not covered by family health insurance) and over the age of 65 are not required to have private health insurance for their residence permit applications.

As stipulated in Article 15 of the Insurance Law No. 6458, a natural or legal person residing in Türkiye must have his/her local risks insured by a Turkish Insurance Company/ Collaboration or a Turkish branch of a foreign insurance company.

Documents Required for Private Health Insurance

- Foreign Identity Number
- Passport Copy of the Insurance Owner
- Father's Name of the Person to be Insured
- Address of the Person to be Insured

Insurance principles and individual pensions are taken seriously in Türkiye and tightly controlled by the Directorate General of Insurance. If you encounter false statements, please contact the Directorate General of Insurance directly and report your problem.

Cancellation of Health Insurance Policy

Insurance holder may cancel the health insurance policy

- if a new insurance policy covering the residence permit period is submitted,
- in case of cancellation of the residence permit,
- and if documents proving that he/she has been registered to the Universal Health Insurance described in the Social Insurance and Universal Health Insurance Law No. 5510 are submitted.
